## Summary of the Activity

The workshop on 'Skill Development Employment' was organized on 12<sup>th</sup> August, 2015 at our institute. In the inaugural function the general secretary of K.V.C. Education Trust, the principal, the faculty members and the students were present. In the first session, the speaker focused on the improvement of their proficiency which is required for higher rate of success. He also discussed that lack of knowledge, education and training restricts their opportunities for self-advancement.

In the next session he focussed on the difference between skilled and less skilled ones. As many organizations prefer skillfull candidates with outstanding career growth, proper training for vocational courses is required to enhance proficient working capacity. His session highlighted that intensity, the productiveness and quality work for more significant results which are core elements for Skill Development and Employment.

In the concluding session the speaker spoke that Skill Development is a vital tool to empower, to safe guard their future and for the overall development of an individual. Thus, he said that it is an important aspect that enhances employment in today's globalisation. Education and Skills should now go hand in hand and they are the roots behind the economic growth and community development.

The workshop was attended by 300 students. The highlight of the workshop was the speaker who shared his views, and experience with students.
